ABOUT ME

PhD candidate in Education with experience in university academic management, educational research, and coordination of training programs. I have participated in educational innovation projects, digital transformation initiatives, and the organization of international conferences, combining research, planning, and educational resource design.

I am especially interested in educational innovation, digital transformation in higher education, and active learning methodologies. I stand out for my critical thinking, organizational skills, and communication and coordination abilities in academic and multidisciplinary environments.

WORK EXPERIENCE

Academic Coordination Manager

Jan 2026 - Present

PMM Business School — Valencia, España

Academic management, student experience, and digitalization in higher education and postgraduate programs. Coordination of academic programs, instructional content design, quality indicator improvement, LMS experience optimization, applied research, and educational support for faculty and students.

Educational Training and Innovation Technician
