ABOUT ME

I am a software developer with experience in the development of human-machine interfaces (HMI) for solar inverters. I have worked with technologies such as Python, Vue, Astro, SQL (JSON) and Docker. I also have experience in the integration of Modbus/SCADA protocols and in the optimization of performance in embedded systems.

WORK EXPERIENCE

HMI Software Developer

Apr 2025 - Present

Zigor — Valencia, España

Built HMI for solar inverters on SoM (Linux) using Python, Vue, Astro, SQL (JSON), and Docker. Integrated Modbus/SCADA protocols and optimized performance for embedded deployment under strict resource constraints.

Technical Consulting

Dec 2024 - Feb 2025

Leyton — Valencia, España

Providing consulting services to obtain financing for innovation projects.

Leisure and Youth Group Leader

2018 - Present

Organización Juvenil Española (OJE) — Valencia, España

Leader and Monitor at the Leisure Time Organization: Organización Juvenil Española.

Erasmus Correspondent in Flanders

Feb 2022 - Jun 2022

Erasmus en Flandes — Gante, Bélgica

Editor at the 'Erasmus in Flanders' blog to promote tourism in the Flanders region (Belgium).

EDUCATION

Double bachelor degree in Business Management and Computer Engineering

2018 - 2024

Universitat Politècnica de València — Valencia, España

Thesis: News generation and editing using GPT: Business Plan and Technological Development.

Erasmus under Computer Engineering

2021 - 2022

Vilniaus Gedimino Technikos Universitetas — Vilnius, Lituania

Erasmus under Business Management

2022

Universiteit Gent (Ghent University) — Gante, Bélgica

High School Diploma in Science and Economics

2016 - 2018

Colegio Sagrado Corazón Hermanos Maristas — Valencia, España
